## PROFILE

Experienced developer who has led and supported projects from the beginning to the end of the development lifecycle. Always eager to jump on a problem or project to complete it and enhance the end-user experience.

## EXPERIENCE

### SOFTWARE DEVELOPER
Many Hats | Feb 2022 - Aug 2023

- Led a technical team of three developers to solve problems, deliver creative solutions, and implement customer-driven requirements
- Built web apps in React and developed mobile apps in React-Native
- Performed projects under Agile methodology

### REACT DEVELOPER
PlayLine | Oct 2020 - Feb 2022

- Collaborated with developers, clients, and vendors to deliver projects
- Planned and developed creative software solutions to meet business goals and objectives for the PlayLine website and iOS React Native app
- Learned, and introduced React Native and React Redux to streamline the mobile app development process and reduce future development time

### WEB DEVELOPMENT MENTOR
Juno College of Technology | Part-Time | Dec 2019 - June 2023

- Lead workshops teaching HTML, CSS, JavaScript, and React concepts to students
- Assessed HTML and CSS website technical tests, reviewing ten-plus submissions a week with a turnaround time of twenty-four hours
- Guide students to debug code, answer questions, and provide feedback and assistance

## FEATURED PROJECTS

### BEANFIELD WEB PAGE
React | https://www.beanfield.com/residential

- Acted as the lead developer to build the front end of the website and integrated it with Wagtail CMS giving the customer a no-code platform to empower their marketing team to update copy and components
- Built with React, Redux, Redux toolkit, SASS and Wagtail CMS

### CONDOCHAT
React-Native | https://play.google.com/store/apps/details?id=com.condochat

- Solely implemented the front-end functionalities of the app.
- Built with React Native, React Recoil, and MongoDB
